THE STATE OF NEW HAMPSHIRE.

L. S. *To the inhabitants of Allenstown, in the County of Merrimack in said state, qualified to vote in town affairs.*

You are hereby notified to meet at the Brick school-house in said Allenstown, on Tuesday, the tenth day of March, next at nine of the clock in the forenoon, to act upon the following subjects :

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.
3. To see if the town will vote to accept the compromise offered by the Boston & Maine R. R. in regard to the Main street crossing.
4. To see if the town will vote to sign the contract offered by the Suncook Water Works.
5. To see what sums the town will vote to pay the firemen for their services.
6. To see if the town will authorize the selectmen to purchase two iron cells for a police station, and will vote to raise and appropriate the sum necessary for the purpose.
7. To see if the town will vote to raise and appropriate the sum of three hundred and twenty-five dollars for the purchase of five hundred feet of hose and a hose reel, to be kept in the Bartlett neighborhood. (By request).
8. To see if the town will vote to lay a drain or sewer in the highway, from a point near the residence of David Hayes to the Suncook river, and raise or appropriate a sum of money for the purpose. (By request.)

9. To see if the town will vote to lay a sewer on Ferry street, and raise or appropriate a sum of money for the purpose. (By request.)

10. To hear the reports of the town officers for the past year, and see if the town will vote to accept the same.

Given under our hands and seal this twenty-fourth day of February, in the year of our Lord, eighteen hundred and ninety-six.

FRANK E. BLODGETT,

E. FONTAINE,

ELI BOISVERT,

Selectmen of Allenstown.

A true copy—

Attest:

FRANK E. BLODGETT,

E. FONTAINE,

ELI BOISVERT,

Selectmen of Allenstown.

CONTRACT PROPOSED BY SUNCOOK WATER-WORKS.

This agreement made and entered into this the day of , between the town of Allenstown in the county of Merrimack and state of New Hampshire of the first part, and the Suncook Water-Works Company, a corporation duly existing and having a place of business in said town, party of the second part.

Witnesseth:

The party of the first part acting by its committee duly authorized by its vote to execute a contract in behalf of said town with said company agrees as follows:

WHEREAS, Said company proposes to construct, maintain, and operate a system of water-works in the towns of Allenstown and Pembroke in said county, for the purpose of supplying said towns with water for domestic, commercial, and manufacturing purposes, and for fire protection, and in accordance with a vote of the town, duly authorizing the same, the following agreement is made for the period of ten years from the first day of December next.

Said company is to build a reservoir of sufficient capacity at or near the outlet of Bear's Hill pond, and to lay and maintain pipe of sufficient size from said point through the principal streets of Suncook village situate in both of said towns, and no pipe where hydrants are to be maintained shall be less than six inches. This construction is to be of iron pipe and substantially in accordance with

the plan of J. A. Farrington and L. E. Scruton, civil engineers, a copy of said plan to be furnished by said engineers for the use of said town.

Said company further agrees to set and maintain hydrants for the annual rental hereinafter named, where said town may direct on line of said pipe, as shown by said plan, and said company also agrees to erect and maintain such additional hydrants as the town may from time to time require at points on lines of pipe where specials have been designated on plan of hydrants made by engineer in charge of work: Provided, however, should it be necessary to lay additional pipe for hydrants located off from the pipe line, as shown by said plan, then the town shall pay a rental of one hydrant to every five hundred feet of pipe or fractional part thereof so laid, said hydrants to be erected and maintained by said town where its selectmen or agents may designate.

And said company further agrees that it will keep and maintain said hydrants in good order and repair at all times for the use of said town during the period herein mentioned, repairs caused by negligence and carelessness of the town's employes excepted, these, if any, to be made by the company at the town's expense, and that during all of said period of time it will furnish through said pipes and hydrants a constant and sufficient supply of water for protection against fire, unavoidable accidents excepted. If at any time said supply is not adequate, then there is to be a proportional abatement of rental.

Said company further agrees that said town shall, on all necessary occasions except when the ground is frozen, have the right to use said hydrants for the purpose of testing the same without unnecessary waste of water and without extra charge therefor, no responsibility by means of accident while the agents or servants of the town are using said hydrants in any event to attach to said company, but to be borne by the town.

Said company further agrees to furnish water without unnecessary waste for the following purposes:

First. For flushing sewers, to be taken from pipes in man-holes at such times as may be required under the supervision of the superintendent of said company.

Second. For sprinkling streets, to be taken from two or more stand pipes to be erected by the company at the expense of the town, and for such hydrants as the town may need and require on the pipe lines of said company; in the event of change in location of hydrants, the town to bear the expense.

Third. Said company also agrees to furnish water for drinking, the washing of person, and for general use in school-houses and public buildings owned by the town on its line of pipe; also for drinking purposes in engine and hose houses, for changing water in the engine and the washing of hose, for a watering trough and

drinking fountain with spring faucet, and one faucet for the police station, said drinking fountain to be located by the selectmen, all appliances and fixtures to be furnished by the town. This (under article 3) being a gratuity, the water for these purposes is to be used under such reasonable regulation as the superintendent of the company may from time to time prescribe, and all accidents or breakage by reason of use under this gratuity to be borne by the town.

The said company further agrees that before entering upon and opening any of the streets of said town for the laying or repair of its pipes and the construction of its works, it will ask permission of the town officials and open said streets under such regulations as they may prescribe, and indemnify them from any loss by reason of the neglect of their agents, provided said company shall have notice of any suit wherein damages shall be claimed, and allowed to defend the same at its own expense.

Now in consideration thereof, the said town agrees to pay for water for the following purposes:

For said hydrants when set the sum of twenty-five dollars per hydrant as the annual rental for use of water in each and every hydrant for the term aforesaid. The rental to apply only to those hydrants set at the time this contract goes into effect, and as to other hydrants that may be erected after December 1, 1895, the same rental per hydrant from the time they may be set and ready for use during the term of this contract.

Should the works not be completed so that the water can be turned on at the time above named, then there is to be a suspension of the rental until the water is turned on and the works tested under the supervision of its engineers.

The water used for sprinkling streets and the flushing of sewers is to be paid for by the town in such reasonable sum as may hereafter be agreed upon with the company.

Said town further agrees to make all payments to said company for water semi-annually, to be made at the company's office on the last days of December and June in each and every year during the term herein mentioned.

Said parties further agree that said town shall have the right to change the location of any hydrant by notifying said company in writing, the expense incurred by the change to be borne by the town, as herein provided.

The towns of Allenstown and Pembroke, or either of them, are to have the right to purchase the company's property at any time within three years after construction, and if the price cannot be agreed upon, then the two towns acting together (or one agreeing that the other shall buy) by their agents and said company, shall each select an engineer, first agreeing upon a third man disinterested and acquainted with the value of such property, to act with said

engineers. This tribunal shall appraise said property, and the value of said works and the company's property shall be left to them; they taking into consideration the costs, present, and prospective earning capacity, and the value thus ascertained shall be the purchase sum to be paid by the buyer, and for which the company is to sell and convey its property, rights, and franchises by a good and sufficient title.

It is further agreed, by the parties, that the right of option is hereby granted for either party to this contract to renew the same for the same period, at the annual rental of twenty dollars per hydrant. This agreement, as to renewal, is made with the full understanding that the town has not at this time authorized the same, and that it has no binding effect, unless the town shall, at its next annual meeting, ratify and confirm this action of its agents. In the event of not ratifying and confirming the same by its vote, then the agreement on the part of the company for a reduction of hydrant rental in case of renewal is to be of no binding effect.

It is further agreed, by the parties, that in addition to the price per hydrant herein specified, there shall be paid annually by the town to said company, on the last day of June during the existence of this contract, or any renewal thereof, a sum of money equal in amount to that assessed as tax on property of said company situate in said town. And it is further agreed by the parties that, should any difference arise as to the true intent or effect of this contract, it shall be referred to three referees, one to be first agreed upon as chairman, and one to be selected by each party interested, all disinterested persons, acquainted with like subjects as those that may be in controversy, and the award of a majority of the referees thus chosen, when made in writing, shall be final between the parties, and any court of competent jurisdiction may enter judgment thereon.

IN TESTIMONY THEREOF the town, by its duly authorized agents, and the company, by its president, have hereunto set their hands and seals on the day of the date first above written.

[Executed in duplicate.]

Signed, sealed, and delivered
in the presence of us.

APPROPRIATIONS FOR 1896.

The sums which must be raised by taxation in 1896, according to law, will be nearly as follows :

State tax,	\$1,505.00
County tax,	1,534.01
School tax,	1,395.00
Highway tax,	1,200.00
Library fund,	83.70

To this must be added the annual appropriation for electric lights, \$684.

These sums must be raised exclusive of any special appropriations made at the annual meeting.

In the matter of the Main Street crossing the Boston & Maine Railroad has issued the following notice to employes.

“Commencing at once all trains and engines, except regular outward freight trains, will make a No Nothing stop within 200 feet of, and before crossing Main street, Suncook, N. H.

W. G. BEAN, *Superintendent.*”

SELECTMEN'S REPORT.

E. H. HOLT,
CHAS. H. SMITH,
H. P. HASELTON,
School Board.

I have carefully examined the above accounts of the school board of Allenstown, and find the same correctly cast and properly vouched.

F. E. BLODGETT,
Auditor.

Allenstown, N. H., Feb. 28, 1896.

GRAMMAR SCHOOL.

The summer term has been taught by Miss Ellen E. Connor, who has taught in this school for the past five terms. The scholars have made constant improvement under her instruction. A lady of wide experience in such matters said she "never saw a school of this grade make so fine an appearance in every respect" as the school in question.

PRIMARY SCHOOL.

The summer term has been taught by Miss Elizabeth A. Abbott. We have been fortunate also in this school in being able to keep the same teacher for a series of terms. She is much liked by both parents and pupils, and the progress made by the pupils in reading, especially, is something remarkable.

RURAL SCHOOL.

The summer term was taught by Miss Caroline M. Dalton. She had taught the two previous terms, and was successful in her work in this school. We were unfortunate in not being able to secure her for another year. It would be for the benefit of this school, if all the parents would support the teacher and school board in their efforts to have a good school, by requiring regular attendance from their children except when prevented by illness.

ROLL OF HONOR.

GRAMMAR SCHOOL.

Waldo H. Chandler, John Young, Gage Haselton, Grace M. Smith.

PRIMARY SCHOOL.

Harriet Blodgett, Annie Sullivan, Roger Haselton, George Chapman.

RURAL SCHOOL.

Gertrude N. Cate, Charles P. Cate, Fronia Roby.
